Roll No

AU-5003-CBGS

B.E. V Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Automotive Transmission System

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Explain the power transmission for military vehicle with the help of neat sketch.
b) Differentiate between live and dead axel used in vehicle with neat diagram.
2. a) Explain the working of clutch used in **SUV vehicle** with sketch.
b) Explain working of over-running clutch with the help of neat sketch.
3. a) Why is centrifugal clutches more suitable for heavy duty application? Discuss.
b) Explain the operating principles of electromagnetic clutch.
4. a) Explain the construction and operation of sliding mesh gear box.
b) What are advantages of fluid coupling?

AU-5003-CBGS

PTO

[2]

5. Explain sliding mesh, constant mesh and epicyclic gear boxes.
6.
 - a) Discuss types of drives.
 - b) Write down functions, principle construction and working of a typical differential.
7.
 - a) Explain different types of live axle with sketch.
 - b) Draw the neat sketch and explain hydraulic control system of automatic transmission system.
8. Discuss any three
 - a) Centrifugal clutch.
 - b) Need of gear box
 - c) Hotchkiss drive
 - d) Electric drive advantages and limitations
