AU-5003-CBGS

B.E. V Semester

Examination, June 2020

Choice Based Grading System (CBGS)

Automotive Transmission System

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) Explain the power transmission for military vehicle with the help of neat sketch. 7
b) Differentiate between live and dead axel used in vehicle with neat diagram. 7
2. a) Explain the working of clutch used in **SUV vehicle** with sketch. 7
b) Explain working of over-running clutch with the help of neat sketch. 7
3. a) What are the methods used to minimize drag toque in fluid coupling? 7
b) Give the construction and working of sliding mesh gear box with neat sketch. 7
4. a) Why hypoid-gear drives is commonly used in automobile for final drive system? 7

AU-5003-CBGS

PTO

[2]

- b) Explain with the help of neat sketch construction and working of limited slip differential? 7
- 5. a) What are the advantages and limitations of electric vehicle? 7
- b) Explain turbo-glide transmission system with the help of neat sketch? 7
- 6. a) Discuss Ward-Leonard system. 7
- b) What are the requirements of clutch in transmission system? 7
- 7. a) What is the need of gear box in automotive vehicles? 7
- b) Which types of gears are used in automotive final drive system? Which gear is most commonly used automobile final drive system? 7
- 8. a) How the hydraulic control system of automatic transmission system works? 7
- b) Why in automobile vehicle most commonly use Hotchkiss drive system for transmitting power? 7
