

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

AU/ME-227-CBCS

B.E. IV Semester

Examination, June 2020

Choice Based Credit System (CBCS)

Energy Conversion

Time : Three Hours

Maximum Marks: 60

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

iii) Draw neat sketch, if required.

1. a) What are causes and remedies in pre ignition in S.I. engine? Discuss in brief.
b) What are the various factors effecting volumetric efficiency?
2. a) Write a short note on performance characteristics of S.I. engine.
b) Explain the stages of combustion in S.I. engine with help of pressure crank angle diagram.
3. a) What do you mean by Pre-ignition? Discuss the causes and remedy of turbulence.
b) Discuss the salient features of various type combustion chambers.
4. What are the Fuel injectors? What is working principle of fuel pump?

AU/ME-227-CBCS

PTO

[2]

5. a) What do you mean by abnormal combustion?
b) Write a short note on cooling of S.I. Engines.
6. a) Discuss the lubrication of C.I. Engines.
b) What is times base indicator diagrams?
7. a) Discuss the various methods of super charging.
b) What are the effects of super charging and turbo charging?
8. a) Write a short note a micro processor controlled super charging?
b) Write a short note on any two of the following:
 - i) Mean effective pressure
 - ii) Volumetric efficiency
 - iii) Delay period
 - iv) Diesel knock
