

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

CE-3004-CBGS

B.E. III Semester

Examination, June 2020

Choice Based Grading System (CBGS) Advance Surveying and Remote Sensing

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.
iii) Assume missing data suitably.

1. a) What is the principle of plane table survey? Also list out briefly explain instruments used in plane table survey. 7
b) Explain the various methods employed for chaining on sloped ground. 7
2. Define and explain working principle of Digital planimeter and EDM. 14
3. a) What do you understand by "PRECISE TRAVERSING" and "BASE LINE MEASUREMENT" Explain. 7
b) What are the different types of plat forms related to remote sensing? 7
4. a) What do you understand by GPS surveying? How it is helpful in civil engineering work? 7
b) Explain in detail about GIS components. 7

CE-3004-CBGS

PTO

[2]

5. a) What is Remote sensing? Explain the process of data collection, store and transfer under remote sensing. 7
b) What are the different types of sensors? 7
6. a) Write a short notes on IRS and their applications. 7
b) Write about the modeling Highway Alignment Studies using GIS. 7
7. a) Explain in detail about the digital image processing. 7
b) Differentiate GPS surveying and conventional surveying. 7
8. What is Total Station? Define its components with diagram. 14
