

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No.....

CE-304 (GS)
B.E. III Semester Examination, June 2020
Grading System (GS)
Engineering Geology
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. Write down the detail notes on geological investigation in engineering practice.
2. Draw Rock cycle, explain how they were formed. Classify different types of Igneous rocks. Explain Engineering significance of Igneous rock.
3. Discuss the internal structure of the earth with neat sketch.
4. What are different types of folds? How will you recognise the folds in field.
5. Explain structural deformation of sedimentary rocks. What are variation have been observed after deformation. Draw distribution of rocks on Indian Sub Continent with examples.

6. Explain different types Weathering. What are the agents are responsible.

OR

Describe the different physical divisions of India.

7. Write briefly on Rock forming minerals and ore forming minerals.

OR

Write short note on physical properties of the following minerals:

- i) Mica
 - ii) Galena
-
8. Write short on:(any two)
 - i) Axis of symmetry
 - ii) Centre of symmetry
 - iii) Plane of symmetry
