CE-7003-CBGS

B.E. VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Modern Construction Technique and Equipment

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Write a note on membrane materials.
b) What are the different types of wall finishes.
2. a) Define sealant. Explain its types and role in construction.
b) Explain the composition of grout and its varieties. Name the various types of admixtures and their uses.
3. a) Explain the role of polymer membranes coatings in construction.
b) What are glazed bricks? Explain various types of flooring and facade materials.
4. a) Write a detailed note on piezoelectric and electrostrictive materials.
b) Write a detailed note on shape memory alloys.
5. a) How has pre-cast construction revolutionized the construction industry? Explain.
b) What is the need for soil improvement before starting construction? How is it carried out ? Explain.

[2]

6. a) Differentiate between:
 - i) Excavation and Dredging
 - ii) Trenching and Tunneling
- b) Describe the drilling and blasting process in construction. What are the compaction and erection equipments used in construction?
7. a) Describe the different types of pile driving equipments with neat sketches. What are the hauling equipments used in construction?
- b) What is sensing technology? Describe types of sensors with their functions.
8. Write short notes on:
 - i) Terrazzo flooring
 - ii) Epoxy and polyurethane
 - iii) Tunnel Boring Machine
 - iv) Recyclability of Aluminium
