

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

CE-702 (GS)
B.E. VII Semester Examination, June 2020
Grading System (GS)
Advanced Structural Design - II (R.C.C.)
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.
ii) All questions carry equal marks.

1. What do you understand by sway and non sway buildings? Explain clearly.
2. What do you understand by Retaining walls? Why it is provided? Also explain cantilever retaining wall.
3. Design an Intze type elevated water tank for 600,000 litres capacity. Design up to ring girder supported on 10 columns.
4. What do you understand by Prestressing? Also discuss its advantages and disadvantages.
5. What are the basic differences between Silo and Bunker? Explain with neat sketches.
6. Design a rectangular tank resting on the ground for a capacity 100kilolitres. Use M25 concrete and Fe 415 rebars.
7. Design a slab bridge with carriage way of 12m with Kerbs only for an effective span of 6.0m for IRC 70 loading. Concrete used is M25 and HYSD bar of grade Fe415 are used.

OR

Discuss about various steps in the design at Rectangular water tank.

8. Write short notes on any three of the following:
 - i) Braced and unbraced building
 - ii) Airy's theory
 - iii) Shear wall
 - iv) Substitute frames and loading condition
 - v) Limit state method of design
