

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

CE-703(A)-CBGS

B.Tech., VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Internet of Things

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Describe the analytics architecture for M2M/IoT with a neat diagram. 7
b) Explain the deployment and operational view, resources, services, virtual entities, users in an IoT system by considering a Parking lot example. 7
2. a) What is Role of the Internet of Things for Increased Autonomy and Agility in Collaborative Production Environments? 7
b) Why are the possible network layer attacks in an IoT system? Explain in detail. 7
3. a) What are the main internal components of a IoT device? Explain in detail. 7
b) How Big Data can be used in IoT? Explain in detail. 7
4. a) What do you understand by DoS (Denial of Service) attack? What is the difference between DoS and DDoS? 7
b) How gateway devices and mobile node devices feature in the autonomy architecture of IoT system? 7

CE-703(A)-CBGS

PTO

[2]

- 5. a) What is 6LoWPAN, Explain in detail? How it is related to IoT? 7
- b) What is the role of PHY and MAC layer in an IoT system? Explain. 7
- 6. a) Explain CoAP Protocol with the example. What is the role of CoAP protocol in IOT? 7
- b) What is the sensing later in the IoT architecture? Explain in detail. 7
- 7. a) Write in detail business model scenario for Internet of Things. Explain with a case study. 7
- b) Discuss various standards and technologies that enables Adhoc connectivity between devices that forms the basis of IoT. 7
- 8. a) What is the Zigbee? Explain about different communication component of IoT. 7
- b) Explain data storage, data processing, data analysis steps in M2M data management. 7
