

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

CE-8044 (GS)
B.E. VIII Semester Examination, June 2020
Grading System (GS)
Energy Efficient and Green Building
(Elective - II)
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.
ii) All questions carry equal marks.

1. What are the specific design guidelines for Thermal performance of buildings.
2. What is Microclimate? How we can improve the microclimate condition.
3. Discuss the concept of green building and its rating system in India.
4. How following features help in designing energy efficient building:
 - i) Orientation of Building
 - ii) Sunshades
 - iii) Landscaping
 - iv) Window design
 - v) Energy-efficient lighting

5. Discuss in detailed Earth coupling and Earth air pipe system.

OR

What are “Energy-efficient air conditioners”? How are they installed with the right size and efficiency?

6. What do you understand by Thermal performance of a building? Explain.
7. Write short notes on:
 - a) Building integrated PV system
 - b) Orientation of green building
8. Write Short notes on: (any two)
 - i) Solar Water Heater
 - ii) PV System
 - iii) Earth Air Tunnel
 - iv) Active and passive cooling
