CS-5005(3)-CBGS

B.E. V Semester

Examination, June 2020

Choice Based Grading System (CBGS)

Artificial Intelligence

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Explain state space with the use of water jug problem.
b) Give an example of a problem for which breadth first search would work better than depth first search.
2. a) What are the characteristics of good knowledge representation technique? Explain each of them in brief.
b) Explain how conventional computing differ from the Intelligence Computing.
3. a) What is inferential knowledge and procedural knowledge?
b) Represent the following sentence into first order logic.
 - i) Ruma dislikes Lata
 - ii) Coconut is biscuit
 - iii) Lata is a child who drink tea.
4. a) What is Bay's theorem? Show how it is useful to handle uncertain data.
b) What is Semantic network? Write its advantage and disadvantage.

CS-5005(3)-CBGS

PTO

[2]

5. What do you understand by conceptual dependency? Give conceptual dependency for the following:
 - i) Rajat gave Rashmi a book
 - ii) The man took a shirt
 - iii) Rajat pushed the block
6. Explain the following term:
 - i) Block word problem
 - ii) Common sense
 - iii) Planning
7.
 - a) What do you mean by Natural language processing? Why it is needed?
 - b) Draw the neat diagram of neural network? How it works? What are the characteristics of neural network?
8. Write a Short Notes (Any Three):
 - i) Expert system
 - ii) Frames
 - iii) Control strategies
 - iv) Refutation
