

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

CS-7101 (GS)
B.E. VII Semester Examination, June 2020
Grading System (GS)
Network and Web Security
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. How to perform penetration testing in intrusion Detection System? What are the requirements of System Integrity verifier in intrusion Detection System?
2. Clearly differentiate between Anomaly Detection and Signature Detection techniques of IDS.
3. Describe the RC4 stream cipher algorithm.
4. Explain the RSA algorithm with the help of a suitable example. If $p=5$ and $q=11$ then calculate the value of e and d also encrypt "DATE".
5. Why hash functions are used to develop MAC? Give reasons. Give design objectives of HMAC and explain the structure of HMAC. What are possible attacks.
6. Write secured authentication mechanism, secured session management for achieving Web Application Security.
7. Write short notes:
 - i) E-mail spiders
 - ii) Foot printing
 - iii) Firewalls
8. Write short notes (any two):
 - a) Session Hijacking
 - b) RC6
 - c) Government Access to keys
 - d) System hacking cycle
