

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

CS-7103 (GS)

B.E. VII Semester Examination, June 2020

Grading System (GS)

Embedded Computer System

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) What is embedded system? What are typical characteristics of an embedded system?
b) Discuss various application of embedded system.
2. How does the general computing system from embedded system in the Booting and startup process?
3. Explain the different addressing modes supported by 8051 microcontroller.
4. Discuss the concept of integrated development environment.
5. a) What is cross compilation? What types of files generated on cross compilation?
b) Explain briefly:
 - i) Boundary scan
 - ii) Emulators
6. Write down the features of embedded C programming.
OR
What do you understand by Integrated Development Environment (IDE)?
7. Write short note on following :
 - a) Embedded Firmware
 - b) Embedded Hardware Architecture Design
8. Write short notes : (Any two)
 - a) Spiral model
 - b) Decompiler
 - c) Bottlenecks in embedded Industry
 - d) Embedded OS trends
