

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

CS-8003 (3) (CBGS)
B.E. VIII Semester Examination, June 2020
Choice Based Grading System (CBGS)
Computer Peripherals and Interfaces

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) Discuss the need of PCI (Peripheral Component Interconnect) Bus.
b) Compare the performance and capabilities of VESA and PCI buses.
2. a) Explain the use SCSI Interface with its pin outs?
b) What is RAID? Explain ATA RAID.
3. a) What is chipset? Discuss the concept of Integrated Video/Motherboard chipset?
b) What do you mean by advanced 3D Technologies?
4. a) What is need for video RAM in video hardware?
b) Write types of mouse and their interfaces.
5. a) How does I/O interface from serial and parallel to IEEE1394 occur? Briefly explain.
b) List the various advantages and disadvantages of memory mapped I/O and isolated I/O.
6. a) What is IDE? Describe the IDE connector and specify the signals in the IDE interface.
b) What is video adapter? What are different types of video adapters?
7. a) What is the primary purpose of a device driver? Explain UNIX / LINUX device drivers in detail.
b) What are steps for Designing and Integration of Peripheral device to a computer system?
8. a) In virtually all systems that include DMA modules, DMA access to main memory is given higher priority than CPU access to main memory. Why?
b) List the broad classification of peripheral devices.
