

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

EC-5005(4)-CBGS

B.E. V Semester

Examination, June 2020

Choice Based Grading System (CBGS)

System Programming

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) What is the difference between an editor and word processor?
b) What are the major activities in Language Processing?
What is the role of Language Processing in System Programming?
2. a) Explain use and field of following tables of a macro:
KPDTAB, MDT, EVTAB, SSTAB.
b) Define two macros of your choice to illustrate nested calls to these macros. Also show their corresponding expansion.
3. a) What is a Loader? Explain the working of Absolute Loader.
b) Differentiate between.
 - i) Sequential and Direct Loader
 - ii) Compile and Go Loaders

EC-5005(4)-CBGS

PTO

[2]

4. a) What is System Software? Discuss its different levels.
b) Explain symbol table and intermediate code conceptual design.
5. Explain the facilities available in MS-DOS linker for program linking.
6. a) What is the requirement of optimization? Discuss machine-independent optimization techniques?
b) Explain and differentiate between Absolute Loaders, Relocating Loaders and Partial Relocating Loaders?
7. What is macro preprocessor? Explain steps of macro preprocessor design.

OR

What is overlay? Explain linking of overlay structured program.

8. Write short notes (any two)
 - a) Linking in MSDOS
 - b) Nested macro call
 - c) Instruction set of SIC architecture
