

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

EC-703(A)-CBGS

B.Tech., VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Cellular Mobile Communication

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Explain the channels in GSM.
b) Describe the performance criteria of Cellular mobile systems.
2. a) Explain the concept of cell splitting.
b) What are different types of non cochannel interference in a cellular system?
3. a) Explain the propagation of mobile signals over water and flat open area with general formula.
b) Explain sum and difference patterns and their synthesis.
4. a) Describe the effects of cell site antenna heights on signal coverage.
b) Explain about the phase difference between the direct and reflected paths of the signal.
5. a) Explain about set-up channels.
b) What is Handoff? Explain Intersystem Handoff.

EC-703(A)-CBGS

PTO

[2]

6. a) Discuss various vehicle locating methods.
b) Discuss the frame structure for GSM.
7. a) Compare TDMA and CDMA techniques.
b) What is dropped call rate and explain their evaluation?
8. a) Explain about umbrella pattern antennas used at cell sites.
b) Derive the desired C/I from a normal case in a Omni directional Antenna System.
