

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

EC-8011 (GS)
B.E. VIII Semester Examination, June 2020
Grading System (GS)
Advanced Data Networks
(Elective-II)
Time : Three Hours
Maximum Marks : 70

Note : i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) Discuss the principle of GPRS and higher data rates.
b) Explain the principle of short messaging services in GSM.
2. How is handoff in cellular mobile communication affected by handoff threshold and minimum acceptable signal level? Illustrate Hard Handoff and Soft Handoff in cellular mobile communication systems.
3. Describe cellular system. What are the topologies used for cellular systems? Briefly explain any one methods for power management in cellular networks.
4. For wireless network operation explain mobility management, radio resources and power management.
5. Write short notes:
 - a) HIPER LAN -2
 - b) Optical Add/Drop Multiplexing (OADM)
 - c) Differential GPS
6. Discuss the performance of passive linear bus architecture and star architecture.
OR
Discuss the principle of Optical Add/Drop Multiplexing (OADM) system.
7. a) Describe Bluetooth architecture and protocol. Also discuss its limitations.
b) Explain the architecture and services of IEEE 802.11.
8. Write short notes on any two of the following.
 - a) Short message services in GSM.
 - b) Bluetooth
 - c) Radio and satellite navigation
 - d) WDM network
