

Total No. of Questions : 8]

[Total No. of Printed Pages :1

Roll No

EE-7202 (GS)
B.E. VII Semester Examination, June 2020
Grading System (GS)
Calibration and Testing of Electrical Equipments
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.
ii) All questions carry equal marks.

1. In view of Indian electricity Act-2003, write the functions of regional load dispatch center.
2. Define the following terms as per Indian Electricity Rules - 1956
 - i) Apparatus
 - ii) Cable
 - iii) Dead
 - iv) Conductor
 - v) Installation
 - vi) Circuit
3. As per Indian electricity act, define the following:
 - i) Service line
 - ii) License
 - iii) Board
 - iv) Area of supply
4. What is Central Advisory Committee? What are their objectives? How does it differ from state Advisory Committee?
5. What do you understand by calibration of circuit breaker? Explain method of calibration of circuit breaker (any type).
6. Illustrate the general guidelines as per IS for installation and commissioning of outdoor transformers.
7. What are the various tests conducted on transformer oil? Write in detail break down voltage test on transformer oil.

OR

Explain with circuit diagram the test on single pole circuit breakers below 240V of voltage rating.
8. Write short notes on any two of the following :
 - a) IS-1255
 - b) IS-2021
 - c) Various steps in installation and commissioning Power Transformer
 - d) IS-1866
