

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

EE-8401 (GS)
B.E. VIII Semester Examination, June 2020
Grading System (GS)
Renewable and Non-Conventional Energy Systems
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) Define energy management and its objectives.
b) What are the advantages and limitations of renewable sources?
2. Discuss statistics of world resources and data on different sources globally and in Indian context.
3. Describe with a neat sketch the working of a Wind Energy Conversion System (WECS) with main components.
4. Discuss briefly the significance of renewable energy resources and their exploitation.
5. What are the role of power electronics to save energy? State energy saving methods for Air-conditioning.
6. List the type of small hydro power generating plants. Also explain the working of low head small hydro project on canal.
7. Discuss solar energy and its advantages.

OR

Explain the construction of solar cell.

8. Write short notes on any two:
 - a) Synchronous verses Induction Generator for stand alone system
 - b) PV operated lighting and water pump
 - c) Magneto hydro generated energy
 - d) Renewable and Non-renewable sources
