

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

EX-703(B)-CBGS

B.Tech., VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Energy Audit and Management

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) What is the need of Energy management? 7
b) Define the term Coefficient of Utilization. 7
2. a) List the various energy instruments. 7
b) Write a note on modes of transfer of heat. 7
3. a) Explain the difference between energy efficient motors and standard motors. 7
b) What are the environmental aspects associated with energy utilization. 7
4. a) What are the role of energy managers. 7
b) What is a Polar curve? How is it useful to illumination engineer? 7
5. a) Explain the operation of a fluorescent lamp with a neat circuit diagram. 7
b) What is the necessity of Replacement of existing lighting systems? 7

EX-703(B)-CBGS

PTO

[2]

- 6. a) Write the applications of lux meter. 7
- b) List the different space heating methods. 7

- 7. a) Which is the best location for capacitor banks for power factor improvement from energy conservation point of view? Give detail explanation. 7
- b) Explain why efficiency of Energy efficient motor is more than conventional motor? 7

- 8. a) Explain energy conservation in commercial buildings. 7
- b) Explain the conditions to be fulfilled for an energy project to economically justifiable. 7
