FT-7002-CBGS

B.E. VII Semester

Examination, June 2020

Choice Based Grading System (CBGS) **Safety Engineering and its Industrial Application**

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. Discuss the sensing device for guards, presence sensing devices and their uses in industries. 14
2. Describe the hazards involved while using major equipment and machine use for material handling. 14
3. Explain work permit system and their types as per OISD norms and brief description of hot work permit. 14
4. a) Write the brief description of confined space entry procedure and permit. 7
b) Explain in detail various types of hazards in forklift and their safety measures. 7
5. a) Describe types of pressure test. Discuss safety precaution in pressure and hydraulic testing. 7
b) Define the pressure vessel and describe the hazards with their control measure for using pressure vessel. 7

PTO

[2]

6. Formulate the onsite and off-site emergency plan for major accident hazards industry. 14
7.
 - a) Write down hazards and their control measures in the manufacture of articles from refractory materials. 7
 - b) Describe the hazards and control measures in solvent extraction plant. 7
8. Write short notes on the following (Any four) 14
 - a) Behavior based safety
 - b) Mechanical limit switches
 - c) Automatic Guided Vehicles
 - d) Hazards of unfired pressure vessel
 - e) High temperature water hazards
