

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

IT-503 (GS)
B.E. V Semester Examination, June 2020
Grading System (GS)
Computer Networks
Time : Three Hours

Maximum Marks : 70

Note: i) Answer any five questions.

ii) All questions carry equal marks.

1. Explain the meanings of term “Piggyback acknowledgement” sketch a typical frame sequence to illustrate how Piggyback acknowledgements are used in the HDLC protocol.
2. What is IP address? What is the maximum numbers of IP addresses that can be assigned to hosts on a local subnet that uses the 255.255.255.224 subnet mask?
3. Define bit stuffing. A bit string, 011110111110111110 needs to be transmitted at the data link layer. What is the string actually transmitted after bit stuffing.
4. Explain the difference of between router and gateway in terms of their working with an example.
5. a) Differentiate connection oriented and connectionless services.
b) Write short note on :-
 - i) Multiplexing
 - ii) Novel network
6. Explain the following:-
 - i) Static channel allocation.
 - ii) Dynamic channel allocation.

OR

What is 802.4? How token passed in the ring?

7. a) What is optimality principle? Explain the shortest path routing algorithm.
b) What is the function of Hub? Explain Active and Passive Hubs.
8. Write short notes on any two of the following:
 - a) Ping Command
 - b) IPv4 Vs IPv6
 - c) TCP Vs UDP
 - d) Arpanet
