

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

IT-7005(1)-CBGS

B.E. VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Ad-hoc Networks

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Explain various wireless technologies available. Describe the characteristics of Bluetooth technology.
b) Discuss IEEE 802.11 (Wi-Fi) technology. Compare and contrast Wi-Fi with Bluetooth technology.
2. a) Write short notes on:
i) GSM
ii) GPRS
iii) UMTS
b) What are issues in designing a Routing protocol for ad-hoc wireless Network?
3. a) What are the various modulation techniques used for wireless data transmission?
b) Explain the internet layer model. What are the roles of various layers in internet model?
4. a) Explain the issues in designing a Multicast Routing protocol.
b) Explain architecture reference model for multicast Routing protocol.

IT-7005(1)-CBGS

PTO

[2]

5. a) What is multicast routing? Explain tree based and mesh based multicast routing.
b) What do you know about energy efficient multicasting? Explain in detail.
6. Discuss and compare Tree Based and Mesh Based multicast routing protocols.
7. a) How to achieve Quality Of Service (QOS) in Ad-hoc environment? Suggest some solutions.
b) What is the need of energy and battery power management? Explain some techniques.
8. a) Explain various energy efficient MAC protocols for wireless Ad-hoc networks.
b) Write short notes on any two of the following:
 - i) TCP over ad-hoc networks
 - ii) HTTPS
 - iii) DSR
 - iv) AODV
