

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

IT-723 (GS)

B.E. VII Semester Examination, June 2020

Grading System (GS)

Bio-Informatics

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. What do you mean by Data warehousing? What are the key features of a data warehouse of meta data? Why a data warehouse is separated from operational databases.
2. Explain following methods of computational sequence alignments :
 - i) Dot Matrix Analysis
 - ii) Word-based Method
3. a) Discuss Information Retrieval System.
b) What are primary and secondary database?
4. Explain the following Algorithm:
 - i) Biological Algorithm
 - ii) Sequence comparison Algorithm
5. Write short notes on :
 - a) HMMER
 - b) Substitution matrices algorithm
6. What do you mean by Navigating databases? Compare it with Sequence database Nucleotide.
OR
Why FASTA file format prefer for search? What are the recommended points of consideration to do efficient FASTA search?
7. Define bioinformatics and give history of bioinformatics.
OR
Explain applications of bioinformatics.
8. Write short notes on any two of the following :-
 - a) BLOSUM
 - b) PAM
 - c) MMDB
 - d) CATH
