

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

IT-842 (GS)

B.E. VIII Semester Examination, June 2020

Grading System (GS)

Adhoc Network

(Elective - IV)

Time : Three Hours

Maximum Marks : 70

- Note :** i) Attempt any five questions.
ii) All questions carry equal marks.

1. With the help of a neat diagram explain the routing using AODV technique.
2. With any five major reasons, analyze why TCP is exposed to significant throughput degradation in ad-hoc networks.
3. Explain the working of contention based protocols and contention based protocol with reservation mechanism. Define its classification.
4. Give a classification of QoS solutions in Adhoc networks.

OR

Explain different energy management schemes for Adhoc wireless networks.

5. What are the issues related to multicast routing protocols? Differentiate tree based and mesh based multicast routing protocols.
6. Write short notes on any two of the followings.
 - i) Transmission power management schemes
 - ii) Key management
 - iii) AODV routing
 - iv) Clustering techniques
 - v) ZRP routing
7. Discuss the usage of electromagnetic spectrum for various communication applications.
8. Write short notes on any two of the following:
 - a) DSR
 - b) TORA
 - c) Mobile Host Movement
