B.E. VI Semester

Examination, June 2020

Choice Based Grading System (CBGS)

Power Plant Engineering

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) Discuss the working principle and application of MHD converter. 7
b) Enumerate the various non conventional sources of energy. 7
2. a) What are the different methods of feed water treatment? Explain in detail any one method. 7
b) What are the different types of cooling towers? Discuss any one. 7
3. a) List the factors which should be considered while designing a power plant. 7
b) Explain the turbine room and auxiliary plant equipment. 7
4. a) What is the function of moderator in a nuclear plant? Which material is used as moderator. 7
b) Give the layout of a fast breeder reactor power plant and explain its salient features. 7

PTO

[2]

5. Explain the main components of hydro-electric power plant with a neat sketch. 14
6.
 - a) Discuss the selection of hydraulic turbines. 7
 - b) Compare economics of hydro, nuclear and thermal power plants. 7
7.
 - a) What are interconnected systems? State their advantages and limitations. 7
 - b) Explain different types of tariffs. 7
8. Write short notes on any three of the following: 14
 - a) Spillway
 - b) Fissionable and Fertile materials
 - c) Fuel cells
 - d) Estimation and prediction of load
