

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

ME-702(A) (GS)
B.E. VII Semester Examination, June 2020
Grading System (GS)
Renewable Energy System
Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. Describe with neat diagram, the principle of solar air heater.
2. a) Discuss the method of Collecting Wind Data and estimation of energy.
b) Explain the various components of wind energy conversation system.
3. What is capacity factor of wind turbine? How it is helpful in prediction matching the turbine with wind site?
4. Give brief classification of turbines for hydro power plants.
5. Explain the constructional details and working of any one type of Biogas gasifier.
6. What are the factors affecting the generation of biogas?
7. Discuss any two commercial methods for hydrogen production.

OR

Define fuel cell. State its working principle. Draw SOFC fuel cell.

8. Write short notes on the following: (any two)
 - a) Solar stills
 - b) Ocean energy conversion
 - c) Selection of hydro turbines
 - d) Origin of Geothermal resources
