

Total No. of Questions : 8]

[Total No. of Printed Pages : 2

Roll No

ME-703(B)-CBGS

B.Tech., VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Artificial Intelligence Techniques

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) What do you mean by Artificial Intelligence? Also explain scope of expectation of AI? 7
b) Explain how problem can be represented in Artificial Intelligence by taking suitable example. 7
2. a) Explain best first search technique with the help of suitable example, also write algorithm for it. 7
b) What is logic? Explain the role of predicate logic and propositional logic in knowledge representation. 7
3. a) Describe minimax procedure. 7
b) Write different advantages and disadvantages of expert system. 7
4. a) What is role of Natural Language Processing in Artificial Intelligence? Explain. 7
b) Explain Baye's Theorem with example. 7

ME-703(B)-CBGS

PTO

[2]

5. a) What is neural network? Explain the applications of neural network. 7
b) What are different areas of Expert System? Explain. 7
6. a) What are the essential characteristics of knowledge representation system? Also write some common schemes of knowledge representation. 7
b) Explain knowledge, reasoning , learning in AI ? 7
7. a) What is production system explain its technique? 7
b) What do you understand by a frame? How is it useful in knowledge representation? 7
8. Explain the following terms with example: 14
 - i) A* Algorithm
 - ii) Hill Climbing
 - iii) ANN
 - iv) Types of Learning
