Roll No

ME-804-GS

B.E. VIII Semester

Examination, December 2020

Grading System (GS)

CAD/CAM/CIM

Time : Three Hours

Maximum Marks : 70

- Note:** i) Attempt any five questions.
ii) All questions carry equal marks.

1. a) Differentiate the DNC with CNC machines.
b) What are G and M Codes? Explain with examples.
2. a) Briefly discuss the different techniques used for scan conversion in computer graphics.
b) What is the need of data standardization? Explain the different drawing data exchange formats.
3. a) What are neutral data formats for CAD?
b) Write various coordinate systems in CAD.
4. a) Explain the principles of NC machines? How productivity can be increased using NC machines.
b) What is Dwell? Explain its function and how it is specified in a part program.

ME-804-GS

PTO

[2]

5. Write a part program for turning job as shown in figure.

6. a) Compare the splines for the same control points created by B-spline and Bezier spline techniques.
b) What do you understand by the term rapid prototyping? Explain in brief.
7. a) What is Flexible Manufacturing System?
b) What is concept of part families? Explain.
8. Write a short note of the following.
a) Agile manufacturing
b) World coordinate system
c) Wire frame modelling
