

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

MI-505 (GS)
B.E. V Semester Examination, June 2020
Grading System (GS)
Mining Machinery - I
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.
ii) All questions carries equal marks.

1. With neat diagram describe the various safety devices installed on haulage systems.
2. Discuss the construction of Headgear and Headgear pulley along with neat sketches.
3. What are the different mode of transportation in U/G mine. Explain briefly rope haulage.
4. Explain torque-time and power-time diagram of a cylindrical drum winder without a balance rope.
5. a) Write notes on:
 - i) Cage and Skip
 - ii) King detaching safety hookb) Write notes on:
 - i) Safety catches
 - ii) Suspension gear
6. Define angle of fleet. What is its importance in winding?
OR
Define axial thrust. Describe a method in details to balance axial thrust.
7. a) Define Duty cycle and Winding cycle.
b) Explain Multi-rope system of winding.
OR
Explain the construction and working of a Roto pump.
- 8 Write note on:(Any two)
 - i) Haulage road way
 - ii) Man hole
 - iii) Drop warwick
 - iv) Monkey catch
