Roll No

MI-6004-CBGS

B.E. VI Semester

Examination, June 2020

Choice Based Grading System (CBGS)

Pollution Control Engineering

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1.
 - a) Explain different air pollutants of open cast mining.
 - b) Explain different method of dust suppression in open cast mining.
2.
 - a) Explain biochemical oxygen demand and chemical oxygen demand of mine water with their equation of calculation.
 - b) Explain the different steps of Industrial Noise Control.
3. Write explanatory notes on:
 - a) Duration of sampling air,
 - b) Location of sampling sites,
 - c) Representative sample
4. Write short notes on any two of the following:
 - a) Coincidence effect of sound transmission, through a barrier
 - b) Sound Level Meter
 - c) Health effects due to noise
 - d) Noise characteristics
