

Total No. of Questions : 8]

[Total No. of Printed Pages : 1

Roll No

MI-605 (GS)
B.E. VI Semester
Examination, June 2020
Grading System (GS)
Pollution Control Engineering
Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.
ii) All questions carry equal marks.

1. What are the causes of water pollution? Write its preventive measures also.
2. What is Environmental pollution? Discuss various types of environmental pollution.
3. Write the health effects of CO₂ gas poisoning on human health.
4. A clean filter is found to weigh 12.3g. After 24 hours of high volume sampling, the concentration of particulate matter in the air was found to be 1008.634 g/m³. The airflow at the start and the end of the test was recorded as 53 ft³/min and 44.3 ft³/min respectively. Determine final weight of the filter after sampling.
5. a) What is Acid Rain?
b) What is Eutrophication?
6. a) What is land pollution? Discuss it.
b) What do you mean by reclamation? What is physical and Biological reclamation.
7. Write the desirable and permissible limits of the water quality parameters; Fluoride (F) and Zinc (Zn) and the risks or effects associated with them as per IS 10500-1991.
8. Explain the following:(Any two)
 - a) Flanking Transmission for sound
 - b) Sound Level Meter
 - c) Control Measures for noise at the path level
 - d) Noise characterisation
