B.E. VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)
Colour Physics and Computer Colour Matching

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Explain spectral reflectance curves of chromatic and achromatic objects.
b) Describe perception of colour with neat diagram.
2. a) Explain subtractive mixing law.
b) Describe colour vision theories.
3. a) Explain the Munsell model of colour atlas.
b) Describe CIE system.
4. a) Explain chromaticity co-ordinates.
b) Draw the chromaticity diagram showing different colours and spectrum and non spectrum colours and give short description.
5. Explain CIE standard illuminants.

PTO

[2]

6. a) Describe the principle of colour measuring instruments.
b) Explain the mechanism of spectro-photometer with neat diagram.
7. a) Explain K M theory.
b) Explain the types of metamerism with pros and cons.
8. a) Describe hue, chroma and value.
b) Explain confusions in colour perception.
