B.E. VII Semester

Examination, December 2020

Choice Based Grading System (CBGS)

Knitting Technology

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Define knitting Technology. Discuss the seasons for the growth of knitting industries.
b) State the comparison between weaving, warp knitting and weft knitting process.
2. a) Describe the semi-permanent deformation behaviour of knitted fabrics with Load-Elongation (LE) curve.
b) Discuss the knitting elements of Double Jersey knitting machine with suitable diagram.
3. a) Calculate the production in yards per hour and pounds per hour for weft knitting machine, if knitting machine run on 25rpm, 700 needles, 0.20" stitch length, 85% efficiency, 24 C.P.I., 20's yarn count.
b) Draw the point paper design for:
 - i) Lacoste
 - ii) Faire Ise

TX-7005(1)-CBGS

PTO

[2]

4. a) Discuss the various methods of representation of weft knitted structure.
b) Draw the point paper diagram for following structure
 - i) 2×2 Rib
 - ii) Lacoste
5. a) Discuss the Rib gaiting and Interlock gaiting.
b) A single jersey fabric is made on machine with 2200 needles with 30 C.P.I. with 20's yarn and 60 stitch per foot (stitches/foot). Calculate the production in weight per linear yard.
6. a) Describe the shogging and swinging motions of warp knitting machine.
b) State the applications of warp knitted fabric.
7. a) Discuss the knitting elements of Tricot warp knitting machine with suitable diagram.
b) Describe the knitting cycle of Raschel warp knitting machine with suitable diagram.
8. a) Draw the point paper design for following warp knit structure
 - i) Birds eye Tricot
 - ii) Birds eye Pillar.
b) Explain the pattern selection mechanism for warp knitting machine.
