B.E. VII Semester Examination, June 2020

Grading System (GS)

Knitting Technology

Time : Three Hours

Maximum Marks : 70

Note: i) Attempt any five questions.

ii) All questions carry equal marks.

1. a) Discuss the rib gaiting and interlock gaiting.
b) Describe the knit, tuck and float loops.
2. a) Discuss the application of warp knitting.
b) Explain the five basic loops of warp knitting.
3. a) Explain the working of pattern selection mechanism for Jacquard knitting. (Any One)
b) Draw the point paper design for following structure.
 - i) 2×2 Rib
 - ii) Lecoste
4. Draw the point paper design for following structure.
 - i) Tricot
 - ii) Lock-knit
5. Describe the load-extension behaviour curve for woven, warp and weft knitted fabric with their properties.

6. Derive the equation: $S = \frac{K_s}{l^2}$

OR

Discuss the knitting cycle of Tricot warp knitting.

7. Calculate the production per day in kg of a plain single jersey knitted at 30 inch diameter, 24 gauge circular M/C having 96 feeders and 0.25cm stitch length produced by 30Ne. The M/C operates at 25rpm and at 70% efficiency.
8. Answer any two of the following:
 - a) State the classification of knitting needles.
 - b) Discuss the functions of positive yarn feeders.
 - c) Draw the open lap and close lap with chain notification.
 - d) State the role of positive feed mechanism in warp knitting.
